The Kruze Collection embodies good design and our devotion to detail. For us, immaculate product development is second nature because we believe details are not just details. They’re the essence that make the product.

Kruze
boss
The Kruze Collection is our homage to the heritage and craftsmanship of British manufacture, an icon in the truest sense of the word. Good design withstanding the test of time.
A model of consistency, Kruze Lounge has evolved over time, never compromising the aesthetic. High or low back lounge options complement, dining and meeting chairs, stool and tables. The design language has remained faithful to the original concept – at a glance, you can recognise Kruze.
Kruze is blessed with an enduring simplicity, and proven as both unique and credible due to its impeccable design genetics. All the time, retaining a capacity to effortlessly evolve.
Kruze
Meeting Chair

Kruze chairs are bonded by a single, pure design aesthetic, the family sustains the ultimate flexibility without compromise. Offered in three seating heights and five base options to create a consistent and coherent whole.
When Boss developed the Kruze collection, we recognised it was not the start of something, more a continuation of a timeless design ethic. Product development as custodians of a classic.
