

# ice

**Handy and hardy, the Ice chair has been engineered for repeated use in demanding events or education spaces.**

But for all its robustness, Ice is still an incredibly comfortable chair. Made with the finest components, twin-stitched upholstery and a staunch ergonomic form, it makes for happy delegates who'll be sitting pretty for hours. To avoid confusion on the big day, there's a handy numbering system on the edge of each seat. And Ice's perfectly stackable shape means it's a cinch to store as well, stacking up to Ten high.
