Nevez Collection

Because perfection is impossible without attention to detail, it is the small things that make great things happen. Nevez is the latest collection from Lyndon to embody these eternal truths.

Crafted

Modernism

The clean, architectural lines of the Nevez bench are the end product of a meticulous process of refinement. No detail is too fine to be perfected in the quest for great design. This principle has served Lyndon well throughout its history. Coupled with the craftsmanship for which the firm is renowned, Nevez sets a new standard for British crafted modernism. And it shows in the combination of a durable, traditional frame with the intricate detailing of the wood and seat pad.

Refined

Design

The commitment to detailing is also there in the refined design of the doweling that connects the seat to the base. Available in a choice of black on oak or brass on walnut, the combination of strength and finesse in the dowel exemplifies the care Lyndon takes to get every detail just right.

Nevez

Details

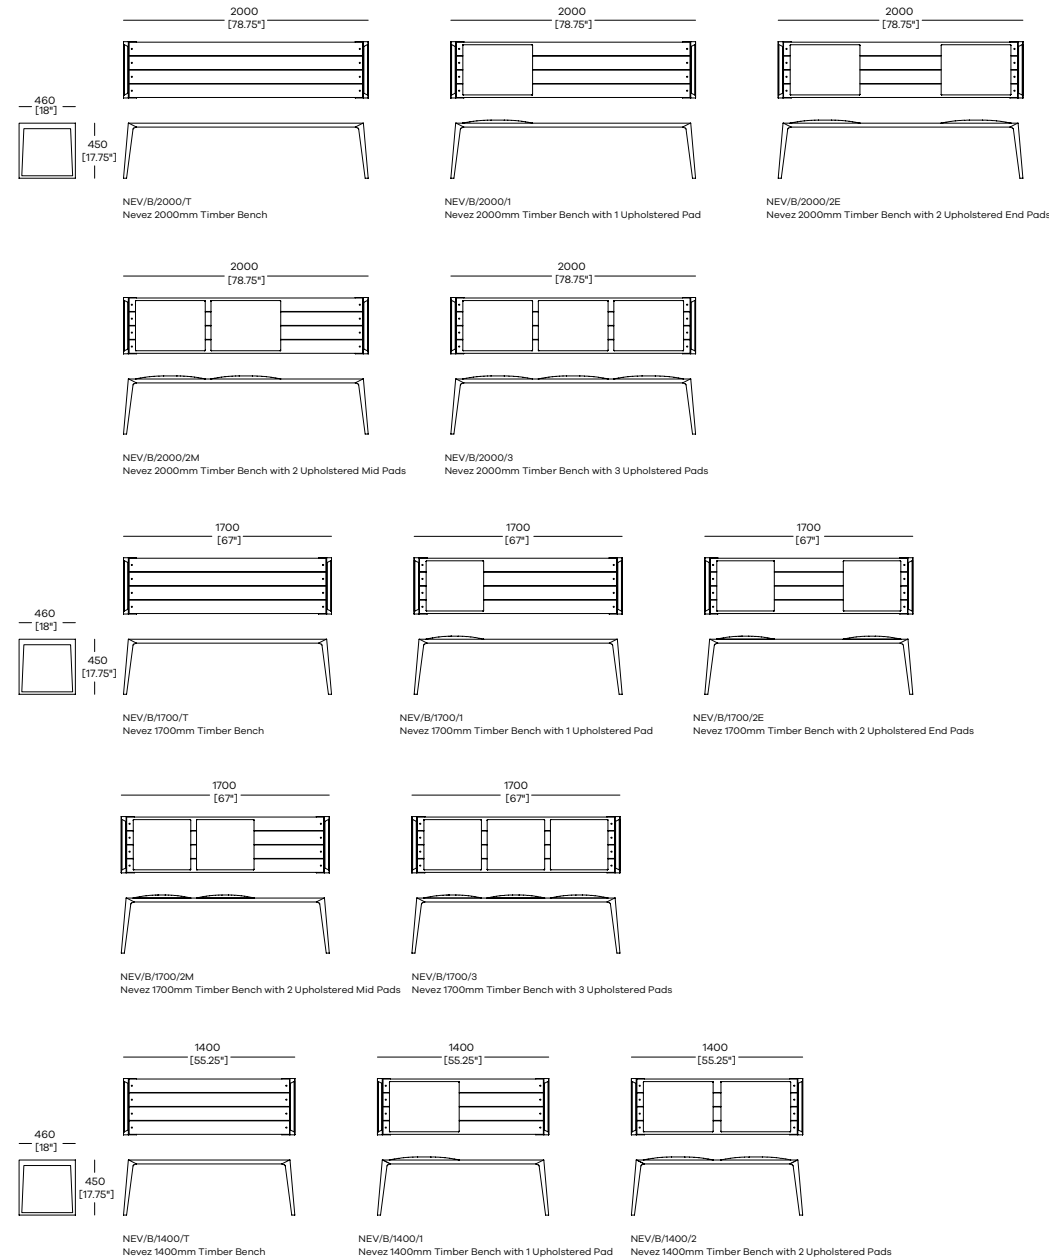

Attention to detail and careful consideration of the design can be seen in the beautiful dowels on the edge of the timber, with the option of black on oak or brass on walnut, bringing a level of finesse that Lyndon is recognised for.

Nevez

Specifications

Options
