

1. Choose Your Model

The first part of building the product code is to select the seat model of the furniture that you require.

In our example, we are specifying a Myriad 2 seater unit, in 'Two-tone Option 1' (MYR/2/B/TT1)

In this case, we want a band 4 outer fabric with a band 5 inner fabric.

2. Select Your Options

Next you need to select the leg finish. Black, White or an Oak lacquered finish. In our example, we would choose white legs with suffix 'W' to specify a white legged option.

The final unit product code for this specification would be 'MYR/2/B/TT1/W'.

Aluminum Leg

Cast Aluminum

Tubular Steel Leg

Black

Steel & Wooden Leg

Oak Lacquer

3. Optional Extras

From here you can add any options such as tables, screens or arm rests. These feature separate product codes which you add separately to your order.

For example when adding an Oval linking table in Laminate, you would add the code 'MYR/A/TAB/OV/Laminate'.

See arm options
