Frida

Designed by Boss

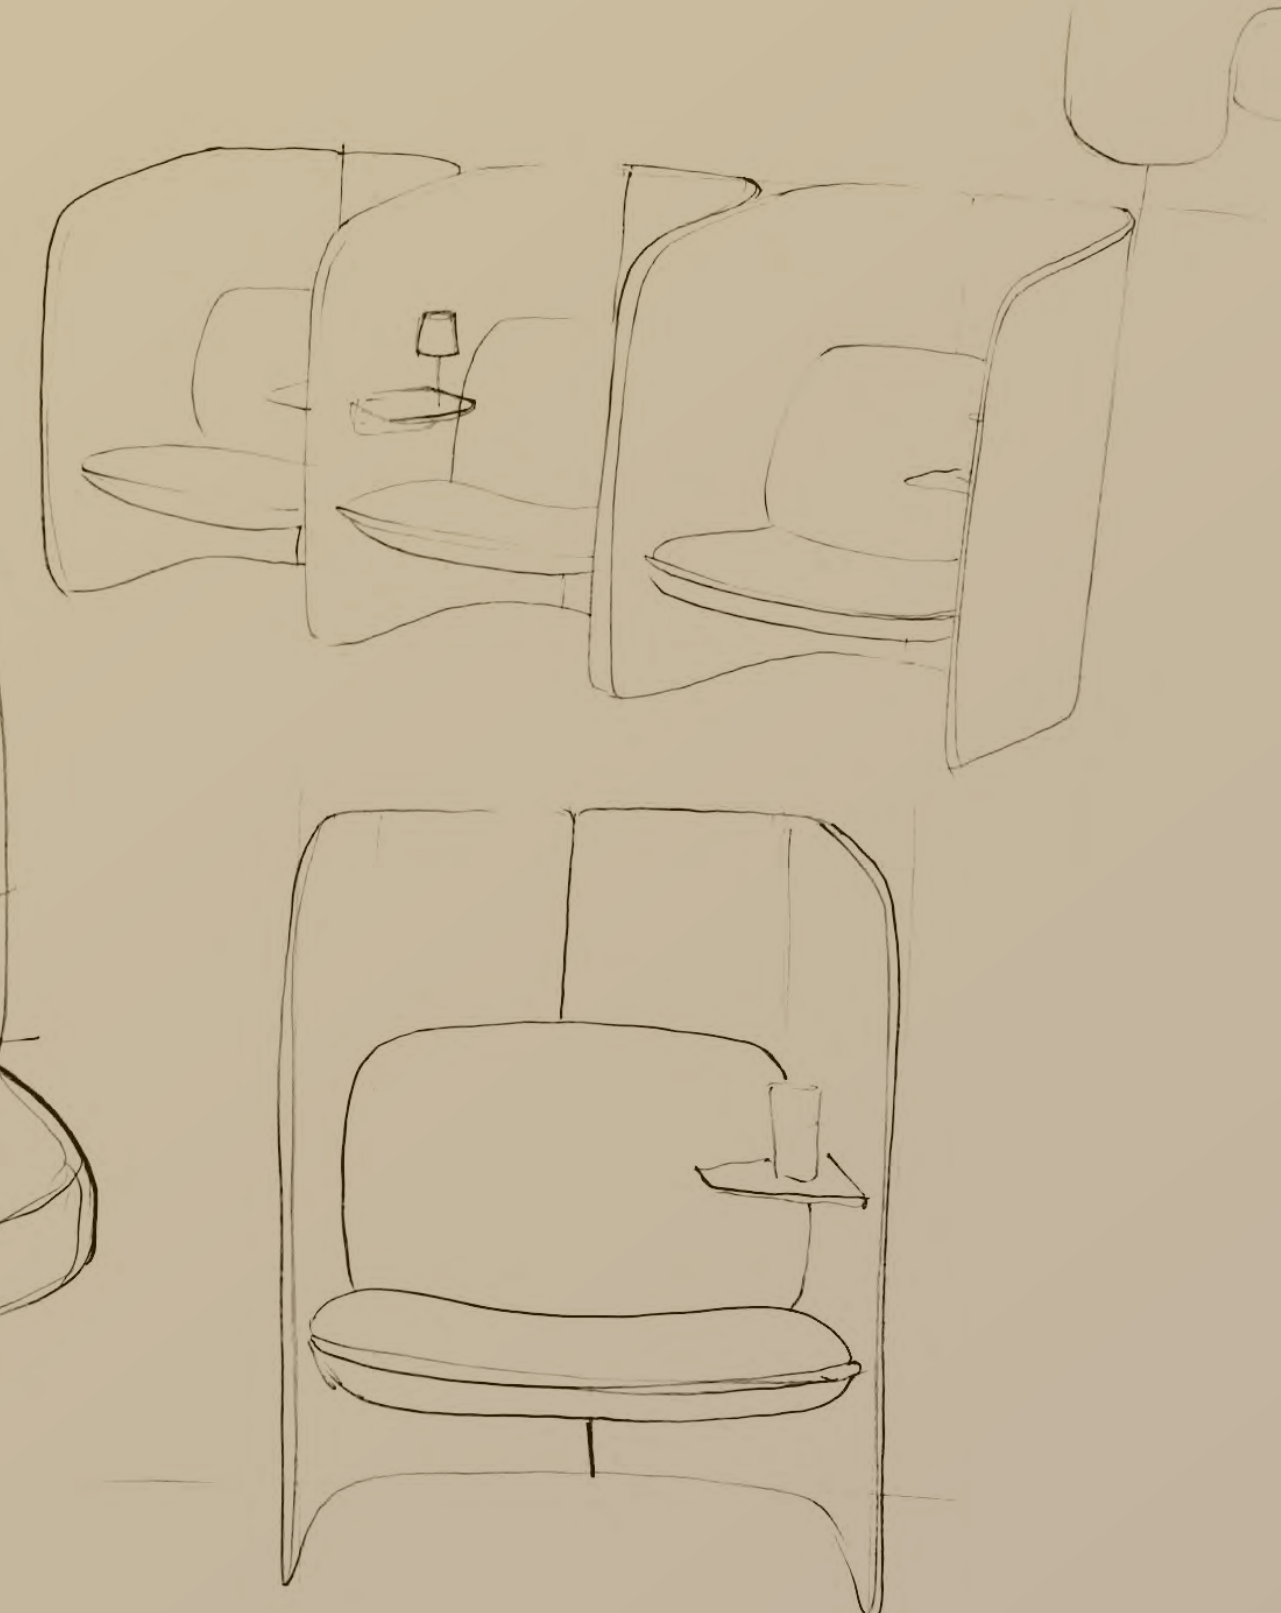

Frida, the focus booth that embraces privacy, comfort and style. It's softness, elegance and form draws you in and creates an ideal space to reflect, read or simply take a moment.

Frida

The Frida Focus Booth, an exquisite addition to our Booth Collection, brings a touch of lounge luxury while paying homage to the iconic artist Frida Kahlo. Inspired by Kahlo's vibrant spirit and unique style, this booth seamlessly combines functionality and comfort.

Frida
Kahlo

Frida Kahlo, known for her bold self-expression and individuality, serves as the muse for the design, infusing the booth with a sense of artistic flair. The lounge luxury introduced in the Frida Focus Booth enhances the user experience, providing a space where creativity can flourish amid a backdrop of refined comfort.

Much like Frida Kahlo's diverse artistic expressions, the booth is designed to be versatile and adaptable, catering to a range of work styles and collaborative needs. The lounge elements incorporated into the booth not only elevate its aesthetic appeal but also create an inviting environment for focused work, meetings, or moments of relaxation.

With no visible fittings, Frida's seat appears to float on air while its outstanding upholstery offers the cosy appeal of a home away from home. Catching the eye, the seat cushion's pinch stitch edge detail hints at the softness and comfort that awaits you.

While the sides of the screen provide just the right level of visual and acoustic privacy, the seat and back provides day long comfort, making Frida the perfect space to work, make calls or zone out and relax.

The Frida focus booth offers storage by design. Luggage, briefcases or laptop bags can be stowed under the seat, blocked by the sitter's legs for greater security in settings such as airport lounges, atriums, lobbies or co-working hubs.

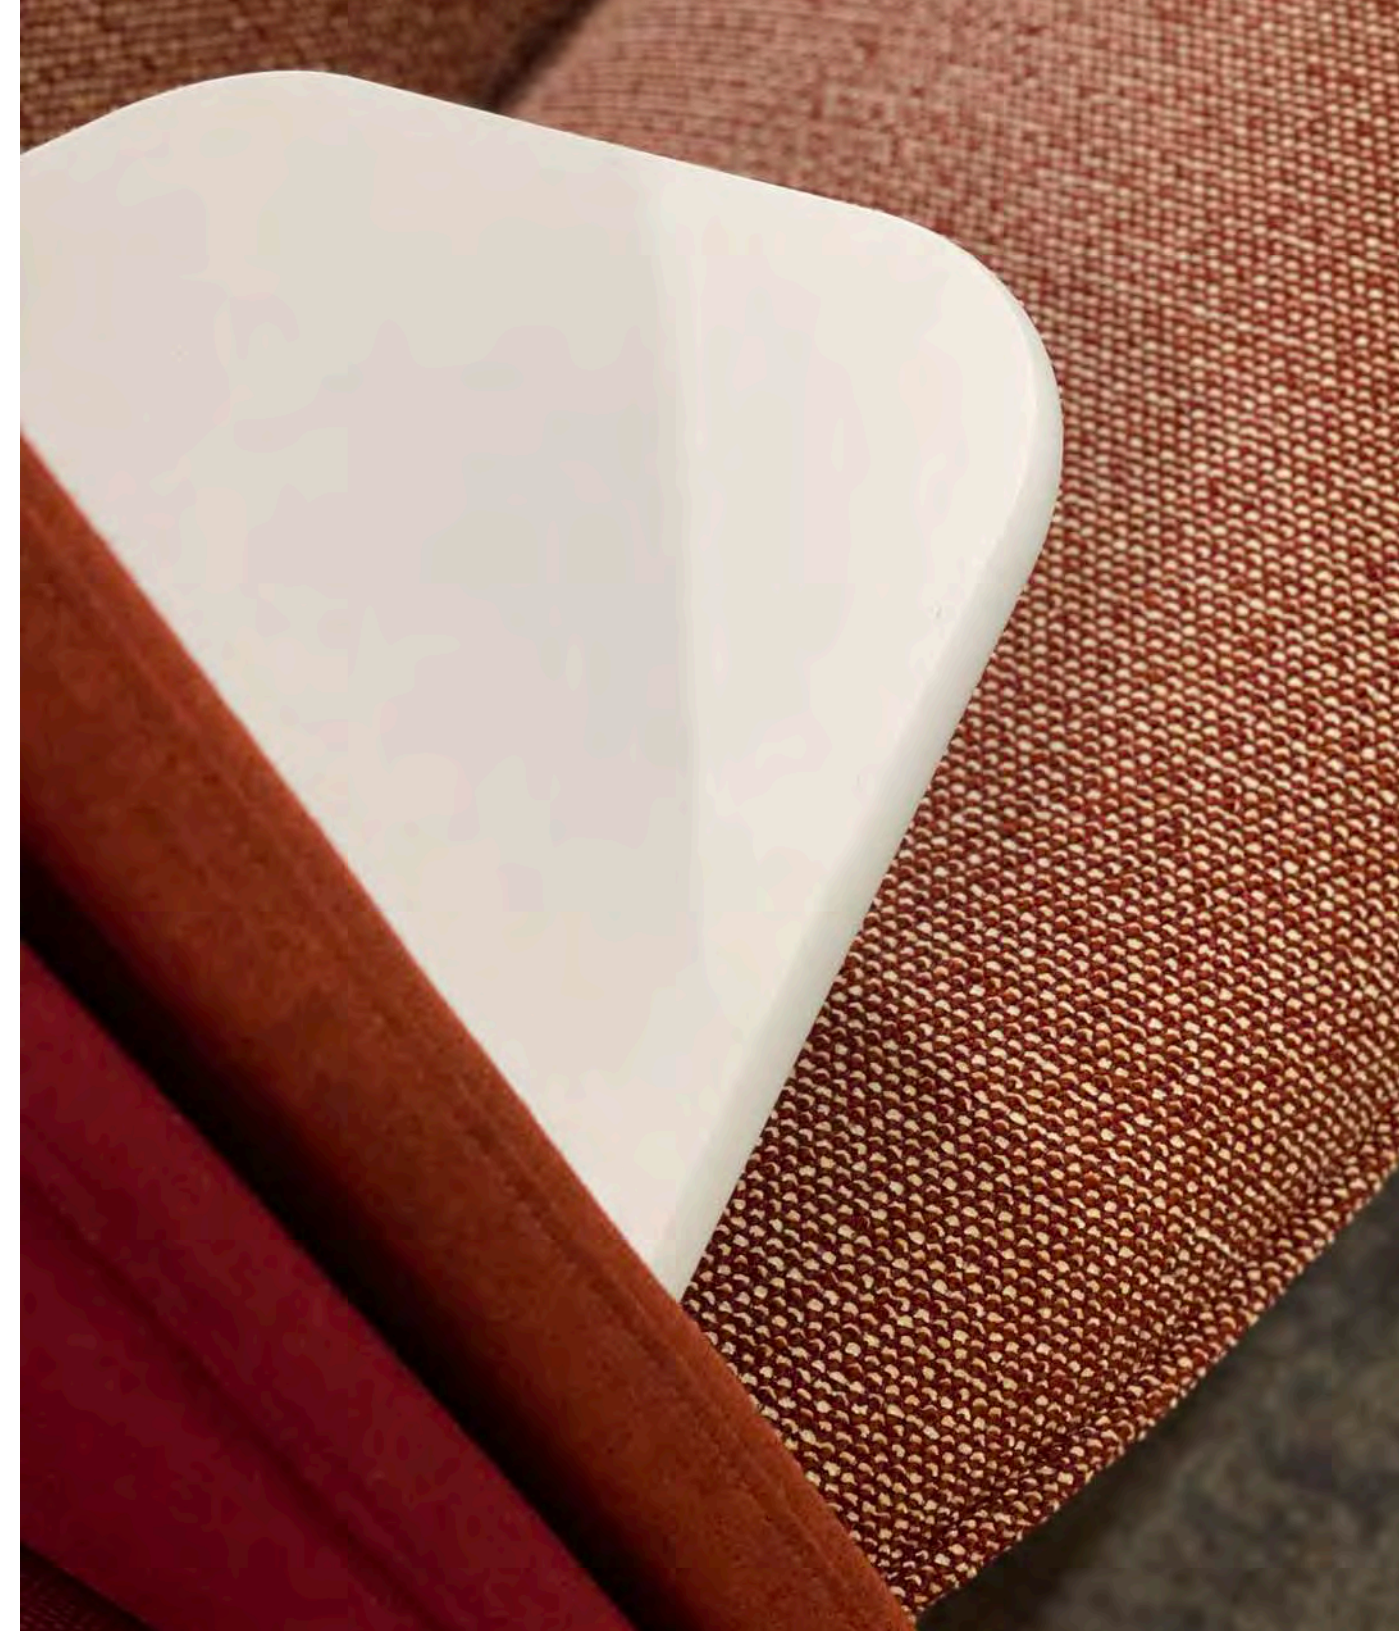

The straight, vertical sides and back make Frida modular and versatile – an inventive way to define your layout. Multiple units can be placed together in a wall to separate activity areas, or to afford sitters a view through panoramic windows. A pair facing opposite ways in an S-shape adds privacy, with several such pairs creating a winding path of tranquil nooks.

Frida

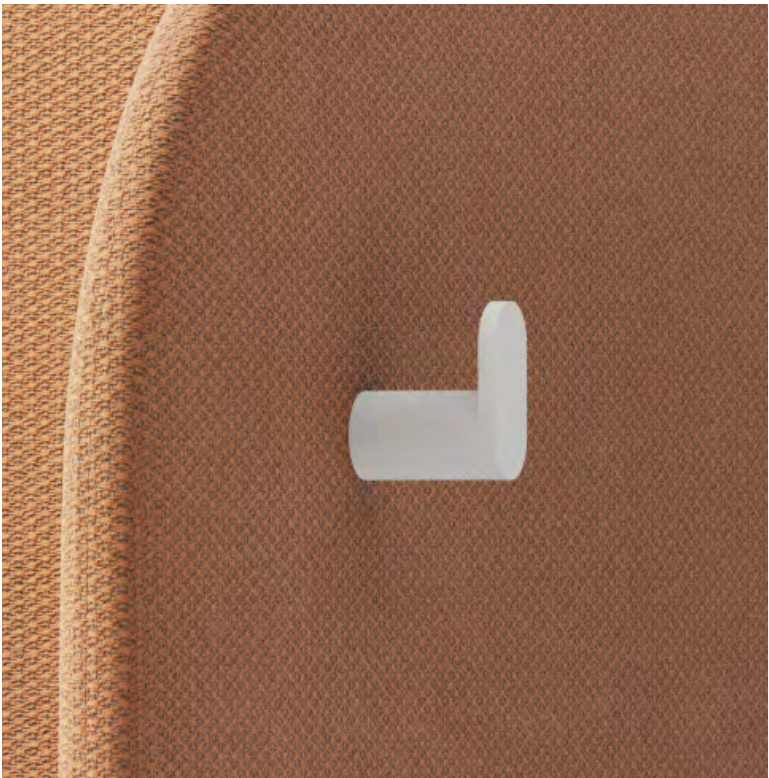

Details

Inspired by the free thinking and creativity of Frida Kahlo, this is a booth with a different perspective, putting the focus on softness and comfort. More than just a space for work, Frida's gentle aesthetic relaxes and can de-stresses the user to support both wellbeing and productivity.
